

KIM, TAEHYEUN

Department of Aerospace Engineering, University of Michigan, Ann Arbor, MI

✉ taehyeun@umich.edu in [LinkedIn](#) 🏠 [Website](#)

Citizenship Status: U.S. Citizen

Research Interests

Safety-Critical Learning-based Control; Spacecraft Rendezvous, Proximity Operations, and Docking (RPOD); Positioning, Navigation, and Timing Satellite Constellation Design

Education

The University of Michigan Ann Arbor

Expected 2027

Ph.D. in Aerospace Engineering, Advisors: Prof. Ilya Kolmanovsky and Prof. Anouck Girard

The University of Colorado Boulder

May 2022

M.S. in Aerospace Engineering and Sciences

Yonsei University, Seoul, Korea

Aug. 2020

B.S. in Astronomy (Class Rank: 1/35)

Publications

Journal

- [1] **T. Kim** and I. Kolmanovsky, "Filter-Aware Optimization of Cislunar PNT Constellations Across CR3BP Orbit Families," under review (revision submitted) in the IEEE Transactions on Aerospace and Electronic Systems.
- [2] **T. Kim**, T-G. Kim, A. Girard, and I. Kolmanovsky, "Learning Unknown Gravitational Fields for Spacecraft State Estimation: Temporal Hamiltonian Neural Network-based Adaptive Kalman Filtering," under review (revision submitted) in the IEEE Transactions on Aerospace and Electronic Systems.

Research Experience

Graduate Student Research Assistant, University of Michigan, Ann Arbor, MI, USA	Sep. 2022-Present
Vehicle Optimization, Dynamics, Control and Autonomy (PI: Prof. Ilya Kolmanovsky and Anouck Girard)	
- Develop constrained control algorithms, including shrinking horizon MPC and time shift governor, for on-orbit spacecraft servicing under Air Force Office of Scientific Research (AFOSR) Space University Research Initiative (SURI). - Develop a metric for solving an optimization problem for position, navigation, and timing systems in cislunar space under US Space Force & Air Force Research Laboratory (AFRL) xRADAR program. - Develop control and navigation algorithms for constrained spacecraft rendezvous and docking, using numerical optimization and learning-based approaches.	
Research Assistant, University of Colorado, Boulder, CO, USA	Dec. 2021-Aug. 2022
Orbital Research Cluster for Celestial Applications (PI: Prof. Jay McMahon)	
Developed spacecraft on-board guidance algorithms to improve their robustness for converging on solutions based on state transition tensors (STTs) and higher-order differential dynamic programming (DDP).	
System Engineer, University of Colorado, Boulder, CO, USA	Aug. 2021-May. 2022
Space Weather Atmospheric Reconfigurable Multiscale Experiment (PI: Prof. Scott Palo)	
Project: Design and built three 3U CubeSats in LEO to investigate the relationship between charged particles and neutral particles.	
1) Identified the correlation between the Dilution of Precision and the GNSS-Zenith angle during OGNC experiments. 2) Simulated and analyzed the spacecraft's relative motion using Differential Drag control.	
Research Intern, Satrec Initiative, Daejeon, Republic of Korea	July 2021
Developed image acquisition planning algorithms to optimize large area coverage from multiple satellite sensors using Mixed Integer Programming.	

Teaching & Mentoring Experiences

Graduate Student Instructor, University of Michigan, Ann Arbor, MI, USA	Winter 2025
AEROSP 548: Astrodynamics (Prof. Ilya Kolmanovsky)	
Graduate Student Instructor, University of Michigan, Ann Arbor, MI, USA	Fall 2024
AEROSP 470: Control of Aerospace Vehicles (Prof. Ilya Kolmanovsky)	
Grader, University of Colorado, Boulder, CO, USA	Winter 2022
ASEN 6020: Optimal Trajectory (Prof. Daniel Scheeres)	
Mentorship, University of Michigan, Ann Arbor, MI, USA	
Graduate students: Robin Kee, Jiasheng Tang, Nicholas Wohlfeil	
Undergraduate students: Jardin Allen	

Awards & Honors

Rackham Conference Travel Grant (\$2,950)	Spring 2023, Winter 2024, Summer 2026
<i>Awarded by The University of Michigan, Ann Arbor, MI</i>	
Yongwoon Fellowship (\$30,000)	Fall 2022
<i>Awarded by Yongwoon Scholarship Foundation, Korea</i>	
The Scholarship for Science (Half-tuition)	Spring 2019
<i>Awarded by Korea Center of Creativity and Personality, Korea</i>	
The Scholarship for Science (Half-tuition)	Spring 2019
<i>Awarded by Korea Student Aid Foundation, Korea</i>	
The Scholarship for Science (Full-tuition)	Fall 2017
<i>Awarded by Hanyang Human Resource Development Institute, Korea</i>	
Honors Student	Fall 2017
<i>Awarded by Yonsei University, Korea</i>	
Certificate of Appreciation	Apr. 2017
<i>Awarded by Joseph C. Holland, Colonel, AR, Commanding, U.S. Army</i>	
Certificate of Commendation	Apr. 2017
<i>Awarded by Suk-Jae Lee, the 8th Army Republic of Korea Army Support Group Commander</i>	
Certificate of Commendation	Mar. 2017
<i>Awarded by Jong-Wook Kim, Chairman, KATUSA Veterans Association Inc.</i>	
Certificate of Achievement	Mar. 2017
<i>Awarded by Brady A. Gallagher, LTC, AV, Commanding, U.S. Army</i>	

Review Activities

AIAA Journal of Guidance, Control, and Dynamics (JGCD).
AIAA Journal of Spacecraft and Rockets (JSR).

IEEE Transactions on Aerospace and Electronic Systems (TAES).
 IEEE Transactions on Control Systems Technology (TCST).
 IEEE Open Journal of Control Systems (OJ-CSYS).
 AIAA SciTech Forum.
 IEEE American Control Conference (ACC).
 IEEE Conference on Control Technology and Applications (CCTA).

Skills & Activities

Technical Skills	Julia, Python, PyTorch, MATLAB, General Mission Analysis Tool, Satellite Tool Kit
Activities	IEEE Membership (student) AIAA Membership (student)
Certificates	STK Certificate, Export Compliance
Languages	English (Fluent), Korean (Fluent)

Other Experience

Volunteer Teacher, Ephphatha Welfare Center for the Disabled, Pyeongtaek, Korea Nov. 2016-Feb. 2017
 Conducted weekly English tutoring to socioeconomically disadvantaged groups.
 Evaluated students’ understanding of course materials and developed strategies to improve their learning.

Sergeant, Korean Augmentation To the United States Army (KATUSA), Pyeongtaek, Korea July 2015-Apr. 2017
 S1 (Personnel), 3-2 General Support Aviation Battalion, 2 CAB, 2ID stationed at USAG Humphreys

Student Volunteer, International Yonsei Community (IYC), Seoul, Korea Spring 2014-Aug. 2022
 Collaborated with the members to coordinate Korean cultural programs supporting foreign students familiarizing themselves with Korean culture and language.
